INDEX

Characters

[Tanuki \(main character\)](#)

[Security Robot](#)

[Security Cameras](#)

Puzzle Elements

Lasers

reflective (mirror) = an interactive gallery sign

Moving objects to climb + hide

1. wooden crate
2. bamboo plant
3. decorative vase
4. decorative sculpture

Timing

Environment

Main Diamond

Entry Room / reception desk + globe

Puzzle room 1

Puzzle Room 2

Puzzle Room 3

[Modular Elements](#)

UI + Music

Tanuki Main Character

both:

leaf on head

sculpted fur shapes at extremities. cheeks, scruff, ankles, tail.

raccoon mask face

Bestial form

Animal Main character like Stray and Untitled Goose Game.

leaf on the head.

tan and brown stripes, with a colorful green leaf

sits on hind legs like a dog when you idle.

cute ears

can use front legs to push objects.

we can pretend they have raccoon hands and not dog paws like real life it helps

Modular environmental elements

Props

long bench

pedestal small

pedestal medium

rope and pole / divider

wall mounted light fixture

ceiling mounted light fixture

painting frame large

painting frame medium

painting frame small

display case large standing (glass)

display case wall (glass)

display case small + wide (glass)

wooden crates

3x large statues

3x medium statues

3x medium sculptures

3x small sculptures

3x busts

decorative plant (bamboo)

architectural

tile floor

plain wall

paneled wall

wall with doorway

wall with window

arched doorway

3m pillar

Environment

large globe

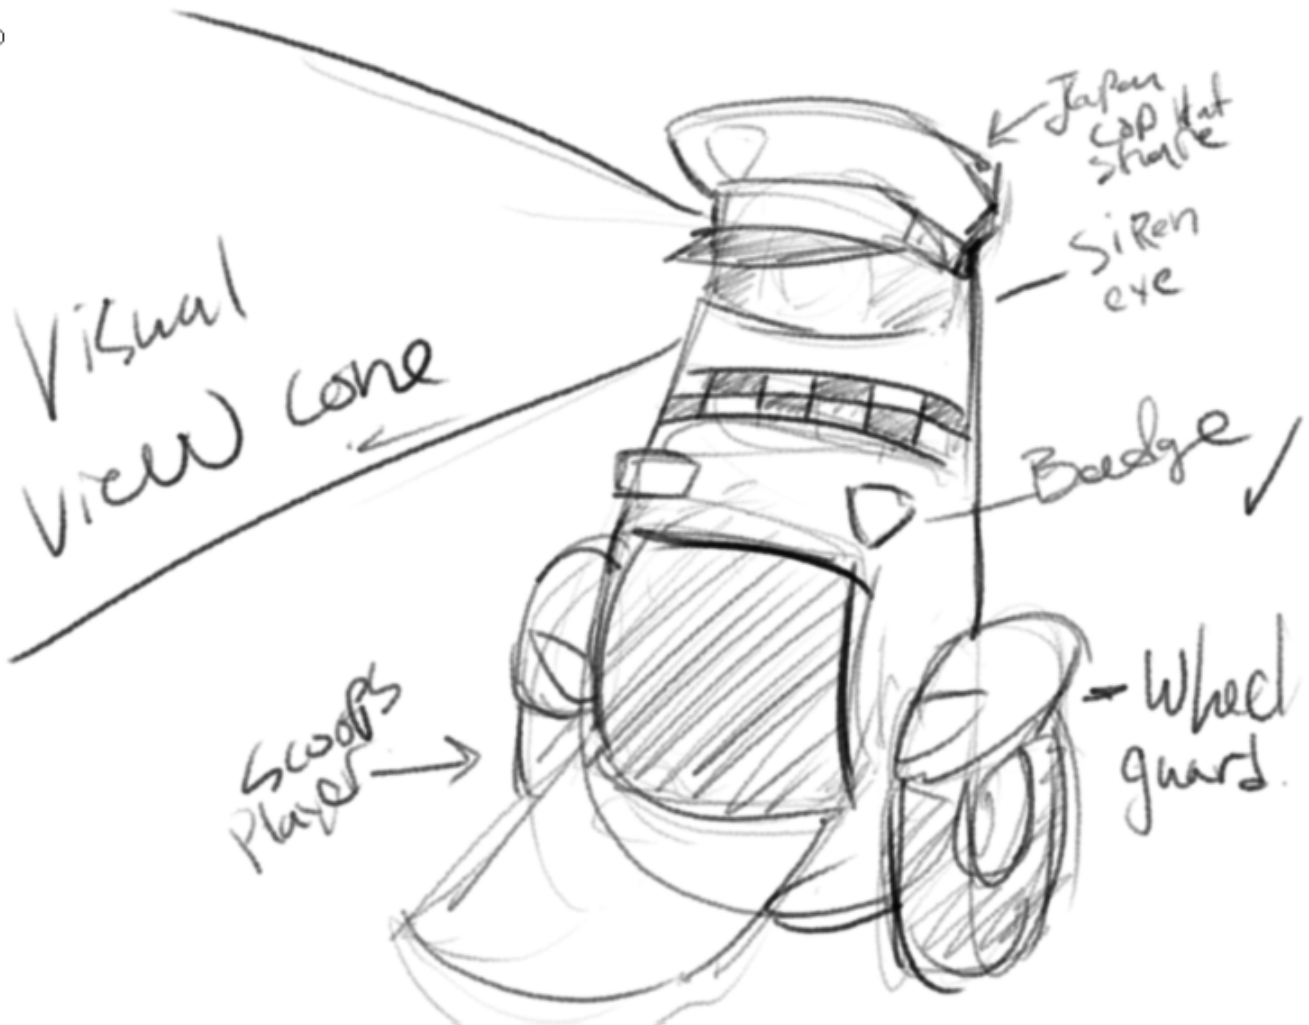

reception desk area

Security Robot

wheels

shaped like a matroshka doll

o

wobbly bobble movement, uncoordinated, has to rotate then move.

view cone can go in any direction

is basically a trashcan cop.

LOVE
DEATH
+
ROBOTS

THANKS ✕ WATCHING ♥

example of an old and disused robot. not damaged, just not cared for.

Security camera

Smart cameras, expressive.

when they see you they look like they take notice, and perk up, and look at you and track you, shining light on you and causing nearby security bot to come check out the alert.

has a little alert light that spins up when its sending alert to the guard.

think about how the pixar lamp works with its head is the lamp and its face is the light.

think about the design of the robots from Wall-e on the ship.

simple, started clean, isnt now.

uses facial minimal expression for maximum performance.

Puzzle Rooms

Room 1

Lazers

Mirrors

Room 2

Room 3
